## **SolveIT Software Appoints Tony Macrellis as Director of Quality & Services**

ADELAIDE, SOUTH AUSTRALIA, 29 August 2011 – SolveIT Software Pty Ltd, a leading provider of enterprise software for supply & demand optimisation and predictive modelling, announced today that it has appointed Tony Macrellis to the corporate role of Director, Quality and Services.

Tony Macrellis is an effective leader with over 25 years of experience in software development and delivery, program management, and operational management. Tony's experience spans a number of industry sectors, including defence engineering, 3D graphics & animation, health informatics, telecommunications, financial services, human resource management and legal practice. He has a strong operational background and has managed secure, high-availability environments that deliver mission critical applications to both in-house and external customers via Software as a Service (SaaS) infrastructure.

Tony's background in quality and process-driven environments will enable him to extend and enhance SolveIT Software's existing operational, product, and service delivery platforms and to position the company to effectively deliver quality outcomes to its growing list of Global 1000 customers.

Before joining SolveIT Software, Tony was an IM&T Program Manager at BAE Systems with responsibility for the delivery of a number of significant operational projects. Prior to this, Tony held various project management, operational management and service management roles with organisations including IBM, and EDS.

"We are very pleased to add Tony Macrellis to our executive team to further strengthen our execution capability," added Roland Spitty, Managing Director of SolveIT Software.

### **About SolveIT Software Pty Ltd**

SolveIT Software Pty Ltd is an Australian company specialising in supply & demand optimisation and predictive modelling. Founded upon the leading research of several world-renowned computer scientists and research organisations, we offer enterprise software for advanced planning & scheduling, supply chain network optimisation, demand planning & forecasting, and predictive modelling. Our software applications are based on proprietary platforms for advanced optimisation, prediction, and what-if analysis, and can optimise production and supply chain activities on both a local (plant) and global (network) level. Customers include Rio Tinto, Viterra, Xstrata, BHP Billiton, Visy Industries, Pernod Ricard Pacific, Amcor, Incitec Pivot, ETSA Utilities, ElectraNet, Foster's Group, BMA Coal, PFD Food Services, Nufarm, Wilson Transformer Company,
