Dr. Zbigniew Michalewicz to Present at ISICA 2005 Conference

ADELAIDE, SOUTH AUSTRALIA, 18 March 2005 – SolveIT Software Pty Ltd, a leading provider of enterprise software for supply & demand optimisation and predictive modelling, announced today that the company's Chairman of the Board, Dr. Zbigniew Michalewicz, will be a keynote speaker at International Symposium on Intelligent Computation and its Applications (ISICA 2005).

The symposium will held in Wuhan, China, from 4 – 6 April 2005, and will bring together an international community from academia, government and industry interested in the use of new computing methods. The National Natural Science Foundation of China and the China National Space Administration are sponsors of the event.

Dr. Zbigniew Michalewicz's talk will focus on the use of Adaptive Business Intelligence™ to solve complex business and government problems. He will also cite several real-world examples from his current and previous work that illustrate the application of Adaptive Business Intelligence™ for industry clients.

About SolveIT Software Pty Ltd

SolveIT Software Pty Ltd is an Australian company specialising in supply & demand optimisation. Founded upon the leading research of several world-renowned computer scientists and research organisations, we offer enterprise software for advanced planning & scheduling, supply chain network optimisation, demand planning & optimisation, and predictive modelling. Our software applications are based on proprietary platforms for advanced optimisation, prediction, and what-if analysis, and can optimise production and supply chain activities on both a local (plant) and global (network) level. For more information about SolveIT Software, please visit www.SolveITSoftware.com

Forward-looking (safe harbor) statement

Statements made in this news release that relate to future plans, events or performances are forward-looking statements. Any statement containing words such as "believes", "plans", "expects" or "intends" and other statements which are not historical facts contained in this release are forward-looking, and these statements involve risks and uncertainties and are based on current expectations. Consequently, actual results could differ materially from the expectations expressed in these forward-looking statements.
