

Pernod Ricard Pacific Goes Live with SolveIT Software's Advanced Planning & Scheduling (APS) System for Bottling

ADELAIDE, SOUTH AUSTRALIA, 5 August 2009 – SolveIT Software Pty Ltd, a leading provider of enterprise software for supply & demand optimisation and predictive modelling, announced today that Pernod Ricard Pacific has gone live with SolveIT Software's Advanced Planning & Scheduling (APS) system across its bottling plants located in Australia and New Zealand.

Featuring advanced functionality for detailed scheduling and re-scheduling optimisation, strategic and tactical what-if analysis, and capacity planning, SolveIT Software's APS system will be used to optimise Pernod Ricard Pacific's bottling operations at Rowland Flat, South Australia, and Tamaki, New Zealand. SolveIT Software's APS system has been integrated with Oracle's JDE EnterpriseOne ERP system and SolveIT Software's Tank Farm Optimiser at Rowland Flat, allowing for the synchronisation and optimisation of production schedules across both the tank farm and bottling operation.

"We believe that SolveIT Software's Advanced Planning & Scheduling system will increase productivity, utilisation, and service levels across the multiple stages of production and packaging at our bottling sites in Australia and New Zealand," said Mr Brett McKinnon, Technical Director at Orlando Wines. "The deployment of SolveIT Software's enterprise applications for vintage intake planning, tank farm optimisation, and production-line scheduling are part of our plan to optimise our end-to-end supply chain."

The implementation of SolveIT Software's APS system follows the deployment of SolveIT Software's Tank Farm Optimiser in 2007, which is used to optimise the wine production process across more than 1000 tanks through the creation of least-cost formulations, and SolveIT Software's Vintage Intake Planner in 2008, which is used to plan and schedule the vintage intake process.

Pernod Ricard Pacific is a leading wine and spirits company in the pacific region with a turnover of approximately AUD \$1.2 billion and more than 2,000 employees. Pernod Ricard Pacific has a dual role of being the brand owner for Australian and New Zealand wines, and a distributor for the entire Pernod Ricard wines and spirits portfolio in Australia, New Zealand and the Pacific Islands, as well as Pacific Travel Retail. About SolveIT Software Pty Ltd

SolveIT Software Pty Ltd is an Australian company specialising in enterprise software solutions for supply & demand optimisation and predictive modelling. Founded upon the leading research of several world-renowned computer scientists and research organisations, we offer tailored solutions for advanced planning & scheduling, supply chain network optimisation, demand planning & optimisation, and predictive modelling. Our software solutions are based on proprietary platforms for advanced optimisation, prediction, and what-if analysis, and can optimise production and supply chain activities on both a local (plant) and global (network) level. Current clients include ABB Grain, Intercast & Forge, Pernod Ricard Pacific, ETSA Utilities, Australian Vintage, Michell Wool, Dentsu Corporation, and the Australian Defense Science and Technology Organisation (DSTO).
