SolveIT Software Sponsors the 2012 Next Generation Oil & Gas Summit

ADELAIDE, SOUTH AUSTRALIA, 14 November 2011 – SolveIT Software Pty Ltd, a leading provider of enterprise software for supply & demand optimisation and predictive modelling, announced today that the company will be a platinum sponsor of 2012 Next Generation Oil & Gas Summit, held in Perth from 31st January to 2nd February, 2012.

Topics that the 2012 Next Generation Oil & Gas Summit will cover include trends in exploration, safety management, supply chain optimization, offshore operations, gas methodologies, drilling technology, social impact, shale gas, LNG, among others. SolveIT Software's keynote session will provide integrated planning and optimisation case studies from some of the world's most complex supply chains in a range of industries.

"By drawing comparisons between different process-driven industries, the similarities in terms of complexity, push/pull factors, and integrated planned and optimisation, can lead to cross fertilisation of ideas about how to address these successfully in oil and gas environments," said James Balzary, Global Director for the Resources Sector at SolveIT Software. "We look forward to engaging with the oil & gas industry interested in next generation capability for advanced planning, scheduling and optimisation."

"With a first-class speaker lineup like SolveIT Software, and workshops and panel discussions on cutting edge topics in the oil and gas industry, Next Generation Oil & Gas summit 2012 is on track to be one of our best events yet," said Oliver Smart, CEO at GDS International

About SolveIT Software Pty Ltd

SolveIT Software Pty Ltd is an Australian company specialising in supply & demand optimisation and predictive modelling. Founded upon the leading research of several world-renowned computer scientists and research organisations, we offer enterprise software for advanced planning & scheduling, supply chain network optimisation, demand planning & forecasting, and predictive modelling. Our software applications are based on proprietary platforms for advanced optimisation, prediction, and what-if analysis, and can optimise production and supply chain activities on both a local (plant) and global (network) level. Customers include Rio Tinto, Viterra, Xstrata, BHP Billiton, Visy Industries, Pernod Ricard Pacific, Fortescue, Amcor, Incitec Pivot, ETSA Utilities, ElectraNet, Foster's Group, BMA Coal, PFD Food Services, Nufarm, Wilson Transformer Company, Liquor Marketing Group, Dentsu Corporation, and the
