

SolveIT Software Pty Ltd Wins the SA iAward for the e-Logistics and Supply Chain Category

ADELAIDE, SOUTH AUSTRALIA, 6 July 2011 – SolveIT Software Pty Ltd, a leading provider of enterprise software for supply & demand optimisation and predictive modelling, announced today that it has won the SA iAward for the e-Logistics and Supply Chain category. SolveIT Software is now a national finalist and will compete against all the state winners for the national e-Logistics and Supply Chain category Award.

The iAwards honours companies at the cutting edge of technology innovation as well as leading professionals across the industry. Most importantly, the iAwards honours the achievements of home-grown Australian innovators. The first phase of judging is at State Level, and is a technical review by judges made up of previous iAward winners and ICT industry professionals, who assess all nominations to select State Winners. Selection was based on the inspiring nature of the candidates, as well as meeting award criteria. Judges look for solutions that catch their imagination and attention.

“We are proud to win this prestigious award,” said Zbigniew Michalewicz, Chairman of SolveIT Software. “This is an achievement our entire team is proud of, as we work as a team to serve our customers and keep innovation at the forefront of the supply chain and logistics software industry.”

Roland Spitty, Managing Director, added, “We encourage our team members to conduct research in advanced optimisation and prediction algorithms, which can improve supply chain performance for our customers. They also continuously publish their research since we believe that advancements in this field benefit all businesses.”

Other recent successes of SolveIT Software include the addition of many new customers, such as Xstrata Copper, Xstrata Zinc, BHP Billiton, ElectraNet, Nufarm, and CBH Group, among others, as well as the opening of several new offices, including one in Europe.

About SolveIT Software Pty Ltd

SolveIT Software Pty Ltd is an Australian company specialising in supply & demand optimisation and predictive modelling. Founded upon the leading research of several world-renowned computer scientists and research organisations, we offer enterprise software for advanced planning & scheduling, supply chain network optimisation, demand planning & forecasting, and predictive modelling. Our software applications are based on proprietary platforms for advanced optimisation, prediction, and what-if analysis, and can optimise production and supply chain activities on both a local (plant) and global (network) level. Customers include Rio Tinto, Viterro, Xstrata, BHP Billiton, Visy Industries, Pernod Ricard Pacific, Amcor, Incitec Pivot, ETSA Utilities, ElectraNet, Foster's Group, BMA Coal, PFD Food Services, Wilson Transformer Company, Liquor Marketing Group, Dentsu Corporation, and the Australian Defense Science and Technology Organisation (DSTO).
